

April 17, 1975

about this bill. We looked at the fiscal impact sheet. The revenue and the expenditures were equal. Now I noticed in the A bill that there is a \$170,000 for administrative cost. During the course of amending the bill and that sort of thing we haven't had the benefit of being in because we're in the Budget Committee working in there, have you amended in any way so that you're covering the \$170,000 worth of administrative cost to include it in the checkoff?

SENATOR MARESH: I think, Senator Goodrich, this is just to show the revenues will be generated and that much expense with the program. I can't see why it should have an A bill. Senator Schmit questioned that too, why there should be an A bill with this bill. This program won't come into effect until a year from now or so. So there will be no expense with this legislation. I can't see why there would be an A bill. I think it's just to show the revenue generated and the same amount spent.

SENATOR GOODRICH: Well, for example, who is going to administer it? Are state employees, that sort of thing, going to administer it?

SENATOR MARESH: Well eventually it will be a committee that's going to get per diem and expenses. This won't come into effect for quite a while. Eventually there will be revenue coming in so it will balance out. There will be no state funding on this program.

SENATOR GOODRICH: Then you're not going to ask the A bill to be passed?

SENATOR MARESH: I don't think it's necessary, no.

PRESIDENT: Senator Marsh, Shirley Marsh.

SENATOR MARSH: I move the Call be raised.

PRESIDENT: The question is shall the Call be raised. Record your vote. Record.

CLERK: 12 ayes, 22 nays.

PRESIDENT: We remain under Call. Senator Kelly. No, that light's off. Senator Dickinson is your light on.

SENATOR DICKINSON: Previous question.

PRESIDENT: Well they're all off anyway. Senator Mills do you wish to close.

SENATOR MILLS: Mr. President, I would like to respond. I do think that when you people are voting on this that you should remember that someone is collecting that tax for those people in the soy bean industry. They are responsible to someone for those dollars. They're sending those dollars somewhere. I respectfully ask you to withdraw my motion. Senator Dickinson, I do not handle soy beans.
